

An NJR Hospital Data Manager (HDM) can use this form to agree with a consultant which data fields shown below represent their surgical default technique. Either the consultant or the HDM can enter this data into the NJR.

A separate form will need to be used for each patient procedure Default Technique.

Please note: It is the responsibility of the consultant to ensure the correct default technique is recorded on the NJR database. A printed and signed copy of the saved default technique should be kept as part of the consultant's record. It is suggested that the HDM also keep a copy.

Please complete all sections.
